## Technology Men Elect Officers Under New Plan

Nominations Due By Day After  
Spring Vacation At The  
Information Booth

Presidential Runner-up To Be  
Given Class Vice-Presidency

Official Election To Be Held  
For All Classes On  
April 27

Technology men, electing class officers Wednesday, April 27, will vote for Vice-president under the new system recently adopted by the Institute Committee. Under this plan no votes are to be cast for Vice-president, the runner up in the presidential election automatically becoming Vice-president. The preferential system will be used. Which means that, after the President has been chosen, second choices on his ballot are added to the other first choices. The winner in this tally becomes Vice-president.

### Nominations Due April 21

All nominations are due at the information office in the Main Lobby no later than 1 P. M. on April 21, the day following Easter vacation. Nominations blanks may be obtained at this office. A total of 25 signatures is necessary to name any man for office. The actual elections will be conducted on April 27th.

Each class, with the exception of the Class of 1938, will vote for a President, a Secretary-Treasurer, and two Institute Committee representatives. The President and the two rep-

## Class of '41 Given Field Day Victory Cup at Their Dance

Frosh Dance Proves Financial  
Success As Over 250  
Persons Attend

Over 250 persons danced to the music of Alden Porter and his orchestra Friday night at the Freshman Dance in the Main Hall of Walker.

The ticket sales totaled 138, making this affair one of the few Freshman dances to achieve financial success.

### Field Day Cup Presented

During an intermission Stuart Paige, chairman of the 1937 Field Day, presented the Field Day Cup to the Class of 1941 in recognition of its victory over the Sophomores. Merton L. Richardson, secretary of the Freshman Council and chairman of the dance committee, accepted the cup for his class.

Entertainment was provided by John B. Murdock, '41, who presented two marimba solos.

## Tech's Debating Team Will Oppose Radcliffe

Defending the negative side of the question "Resolved: That women's clubs are a detriment to the sanctity of the home," the M. I. T. debating team will oppose a Radcliffe College team at 4 o'clock Wednesday, April 12, in Fay Hall at Radcliffe. The team will be composed of Peter M. Bernays, '39, and Nicholas Shoumatoff, '39.

In the final debate of the season in the Eastern Intercollegiate Debate League, Robert Treat, '38, and Howard Schlansker, '38, will defend the

## 30,000 Invitations Given For Institute Open House

Starting today some 30,000 invitations to Open House will be distributed by the Institute through the students. They are to be sent to the fraternities and will be available in the Main Lobby for the commuters who wish them, but the limit is six per student.

Not necessary for the attendance of Open House, the invitations are merely used as a means of informing people that the Institute is going to have such an affair.

## T.E.N. Sponsors Writing Contest

Prizes Offered For Articles  
On Engineering Or  
Science

Prizes totalling \$30 and three subscriptions to T. E. N. are being offered by the Tech Engineering News for the best articles of technical interest.

First prize is \$25 or a trip to the General Electric Company's laboratories in Schenectady. The second prize is \$5, and the three third prizes are subscriptions to T. E. N.

### Promotes Scientific Writing

The contest, which closes on April 30, is sponsored by the engineering magazine with the purpose of promoting good scientific writing.

Among the judges will be Professors Robert E. "Tubby" Rogers and Penfield Robert of the English department, and Dean Samuel C. Prescott.

### Participants Should Notify Editor

Students planning to participate in the contest are requested to notify the editor of T. E. N. in order that the number of entries may be approximately known and adequate arrangements made for judging them.

## Voo Doo Succumbs To The Tech Men

Newspaper Proves Its Prowess  
By Score Of 4½ To 3½

Answering the challenge issued by Phosphorus in the Junior Prom issue of VooDoo, a powerful beer drinking team from The Tech downed the VooDooites by a score of 4½ to 3½ last Saturday evening at the Colonial Room of the Westminster Hotel.

At a party which was sponsored jointly by the two publications for their staffs, teams of eight were chosen and men were paired off against opponents from the rival publication. One point was awarded to a publication when a man from that publication had bested his opponent.

## Tech Men Offered Vacation Training On Sailing Vessel

To Be Given Opportunity Of  
Free Instruction For  
Merchant Marine

To Be On Board Four Months

Tech men will be given an opportunity to spend their summer cruising on a 2500 ton sailing vessel by the American Nautical Academy National Training School for the Merchant Marine Officers.

The object of these trips is to acquaint the youth of America with the opportunities of a career as officers in United States Merchant Marine.

Those who enroll may remain on board ship for any period, more than four weeks, from June 1 to October 1.

There is no tuition charge for any of the courses offered, and no obligation for future service is incurred. The only required expense is for meals which are \$49 each.

While on board ship a regular routine will be followed. Practical instruction will be given in nautical subjects, including seamanship, signaling, rowing, life-saving, and naval drill. The men will also receive instructions on the duties and responsibilities of a seaman. All those completing the summer course with a passing grade will be eligible to apply for a scholarship in the regular course.

Due to the fact that the number of accommodations available is limited, those wishing to take advantage of this opportunity should write at once to American Nautical Academy National Training for Merchant Marine Officers, Washington, D. C.

## ISSUES

THE FRATERNITY JUNIORS, at a meeting of their representatives, Sunday, decided whom they would back for Senior Class officers. Contrary to custom, but with the hope that better men could be chosen, a representative of the dormitories was invited to the meeting.

After a long session, the following men were chosen: Wingard and Grant for president, Leghorn for secretary-treasurer, Wooster as first choice for the Institute Committee, and Seykota as second choice.

The dormitory representative told the group that it was the feeling of many in the dorms that they had no man capable of handling the presidency, and that he thought none would be backed by the dormitories for this position. Because of this it was decided to put two men up for the office, and let the men in the dormitories take their pick.

To oppose the Sophomore frat-

### Issues

## Prof. Magoun Will Deliver Lecture Twice On Thursday

This Thursday, because of the tremendous response to his last addresses, Professor F. Alexander Magoun will duplicate last week's arrangement of repeating his lecture on marriage. The lecture will be given in Room 10-250 at four o'clock and again at five. Arrangements were made through the T. C. A., which is sponsoring the lectures.

Thursday's address will be the third and last of Professor Magoun's series. It will deal with the process of adjustments after marriage.

## Alpha Tau Omega Wins Tournament

Margin Of Half-Point Decides  
Victory Of Annual I. F. C.  
Bridge Tournament

The fifth annual I. F. C. bridge tournament finals were played last Sunday, resulting in a victory for Alpha Tau Omega. By nosing out the Delta Kappa Epsilon team by only a half-point superiority, victory was gained over the eight final entries.

The number of teams competing in the finals was limited by the preliminary matches of the week before. Of the sixteen primary entries eight played in the finals. These ended in the following order: Alpha Tau Omega, Delta Kappa Epsilon, Sigma Chi and Delta Psi, tied, Sigma Alpha Mu, Delta Upsilon and Phi Beta Delta, tied, and last, Bill Roper's Theta Chi team.

### Sigma Chi's Are Hosts

The tournament was held at the Sigma Chi house, where supper was served both weeks. The I. F. C. is indebted to Mr. George M. Leghorn, father of one of the Sigma Chi's. Mr. Leghorn donated the duplicate boards and cards necessary in the conduction of the tournament. He also acted as referee, administrator, and in truth ran the entire tournament.

An outstanding feature of this tournament was the small range of scores in the finals. The A. T. O. score was thirteen and a half of a possible twenty-one. The Theta Chi score was eight and a half. It is an unusual occurrence to have the teams bunched so closely.

Previous winners of the cup are: Sigma Chi, Kappa Sigma, Delta Upsilon, and Phi Beta Epsilon.

## Outing Club Plans For Rock Climbs In Spring

Authority On Sport Introduces  
Idea With Movies and Lecture

Illustrating his talk with motion pictures, Mr. Kenneth Henderson, one of the outstanding mountain climbers of the country, introduced rock climbing to the M. I. T. Outing Club yesterday afternoon in room 6-120.

Professor Dean Peabody of the Civil Engineering Department, also an experienced mountaineer, gave an introductory talk on the theory and technique of rock climbing and then presented Mr. Henderson to the club.

The talks represent the beginning of the club's active participation in rock climbing. A series of rock climbing trips have been planned for this spring, to local places around Boston. Later on there probably will be a trip to the White Mountains.

### Shows Personal Movies

The movies used in the lecture were taken by Mr. Henderson himself last

### Outing Club

## Frank McGinley Band To Feature I.F.C. Tea Dance

Well Known Collegiate Band  
To Play At Hotel Vendome  
On April 30th

All Options Must Be Redeemed  
By Friday Evening, April 15

Band Well Known By Colleges  
For Its Hot Trumpet  
Section

All options for the I. F. C. weekend must be redeemed by Friday evening as stated on the option it was announced by the Committee last night. At that time everyone possessing an option must decide which of the events he wishes to attend and redeem his option accordingly. The tickets will be distributed to each of the fraternities on Wednesday evening to the same representatives who handled the options. Further information may be obtained from them.

Frank McGinley's well known collegiate orchestra will be featured at the Interfraternity Tea Dance, according to Willard Roper, '38, chairman of the committee in charge of the I. F. C. weekend. The dance will be held from 4:15 until 6:15 in the Empire Room of the Hotel Vendome. Tickets will sell for \$1.25.

### Trumpet Section Outstanding

Known throughout New England for its "hot" trumpet section, the orchestra has Harry Miller, one of the best trumpet players in the country at the head of its trumpet section. The orchestra has played for dances at Harvard, Brown and Tufts, as well as being the favorite orchestra of Tech's Chi Phi house.

In spite of the fact that many of the fraternities are planning house

### I. F. C. Weekend

## Voo Doo April Issue, Going On Sale Today, Features Dictators

Hitler, Mussolini, and Roosevelt  
Portrayed With Local  
Politicians

Dictators dominate the April issue of Voo Doo, on sale today, with Hitler, Mussolini, and President Roosevelt receiving particular attention, although local politicians are not neglected.

Several cartoons of the international leaders are included with the article on politics. Der Fuehrer and Il Duce are pictured in action, and a page each is delegated to their respective followers.

### Tech Candidates On Cover

The front cover represents three Technology candidates soliciting votes. A certified account of an old-time Institute election is also included in the issue.

Among the other features are a Tom Swift story, and Exodus and Murgatroyd.

## M.I.T.A.A. To Donate Cup For Competition

The advisory board of the M. I. T. A. A. at a recent meeting voted to donate a silver cup to the intramural competition proposed by the Beaver Key Society. Immediate action will be taken on competition in tennis, softball and track.

May 7 has been set as a tentative date for the track meet, and the softball and tennis competition will begin immediately after vacation. It is urged by the M. I. T. A. A. that the prospective competitors in the activities prepare themselves physically for them. Coach Hedlund has volunteered to supervise the training and give any help desired.

Eight events will feature the track meet: the 100 yard dash, the 220 yard dash, the 440 yard run, the broad

## BANK BOOKS

### INSTEAD OF DEPOSIT SLIPS

ONE OF the many conveniences which the Institute offers its students is the banking service in the Bursar's office. Of inestimable value to the man who keeps no checking account and whose funds come in lump form rather than in small amounts, the service represents a real desire on the part of the college administration to cater to the welfare of the student body.

We cannot understand, however, why the system of banking in vogue here employs inconvenient bank slips, easily lost and affording the depositor no concise view of his financial situation. With no intention of "gripping," we would suggest to the administration that small bank books are much more convenient than the present individual deposit slips and not much more expensive.

## Letters to the Editor

### Truth And The Bible

To the Editor:

Your recent editorial on religion led me to think you might find space to offer your readers the following comments on Religious Opinions.

It has been rightly said, "No man has a right to an opinion about anything which may be determined on the basis of fact."

One of the definitions of FACT is, "any statement strictly true." God who cannot lie has spoken and has had his statement written in a book, translations of which we have at hand. The statements of this book are so important and so unchangeable that Jesus Christ said, "Heaven and earth shall pass away but my words shall not pass away." It is possible therefore to know on the basis of fact what God thinks of man and what our attitude should be toward Him. Read the first five chapters of Paul's letter to the Romans. Any discussion of religion apart from or independent of this revelation leads to untenable speculation. When the facts are available it is certainly foolish for intelligent men to formulate or follow any philosophy which disagrees in any detail or particular with the revealed facts.

J. J. Eames

Editor's Note: We want to thank Professor Eames for his letter, and hope that others will offer concise, positive statements of their beliefs.

### Two Natures

In the Metropolitan Museum of New York you will see one of the finest pieces of sculptured marble in the world under the title of "Two Natures" by George Grey Barnard. You can stand before it for hours and meditate—and leave with a silent sermon preached to you. Two natures in man, forever contesting for supremacy, the one over the other.

Every day of the year, in all parts of the world—and far into the night—scientists are giving of their

life-blood—for two things: To build up life, and prolong it, and to destroy it. Both are able, but one works for money—the other for the satisfaction of having contributed to life and happiness upon this earth. . . .

One scientist . . . is working long and late to discover new means of destroying life and the age-long efforts of man. He has discovered a new poison gas, or new chemical for the destruction of towns, cities, great works of art, hospitals, educational institutions—anything, so long as it is wiped out. Planes, swift in the air, will drop his discoveries and inventions in the form of bombs and gas that will spell terror and despair to the innocent; and once great cities and areas, will remain as but memories of the past efforts and sacrifices of men and women. . . .

Another scientist . . . thinks of life in terms of health and happiness. He wants to see the world with less tears. He wants to see babies live, where heretofore they died. He wants to bring joy to mothers' and fathers' hearts. He wants to see civilization preserved, and happier people upon the earth. And so he, too, works long and late. Compensation is a trivial consideration with him. His is the love of mankind—a better and safer world in which to live.

Two scientists, two men, two natures! Which of these scientists is going to live in history and in the affections of millions? If the ideas and plans of the destroyers of life are allowed to control, all hope in the world will be lost. But if those who strive to save life win out, we have everything to hope for—less disease, healthier and happier human beings, a world worth living in, and one worth all the sacrifices essential to happiness.

There are more people—by a large majority—who are for peace and a decent, happy life upon this earth, than there are for a torn and devastated earth, with its aftermath of tears and despair. One Steinmetz, Pasteur, Edison or Crompton is worth a thousand Napoleons!

Nearly 2,000 years ago a humble human being came out of a little town in Palestine and went about "doing good." His message was: "I come to seek and to save." That is the task and message that the great scientists today have for the world. To seek, and to save. People today are younger at 50 than they were a century ago. Younger in life. The searchers and scientists have brought all this about.

Soon, on the west coast of the United States there will be completed the greatest telescope in the world—and soon we shall know secrets that we never knew before. Today, and tonight, there are great scientists working to discover how to combat and conquer the unconquerable. To them we owe tribute and our prayers for their ultimate success.

The future happiness and security of this world lie much with the scientists who seek to save—not to destroy.

Cleveland Plain Dealer.

## Reviews and Previews

**STATE AND ORPHEUM**—Everybody Sing, with a cast headed by Judy Garland, Allan Jones, and Fanny Brice, is the story of a playwright father and an actress mother who call on their singing daughter to "put over" their stage production. Joe E. Brown's new film, *Wide Open Faces*, completes the bill.

**MEMORIAL**—Deanna Durbin's latest musical continues here, while the stage show headed by songstress Jane Pickens is also held over. In *Mad About Music*, Deanna sings classical numbers such as "Ave Maria" as well as modern songs.

**BOSTON**—Sally Eilers and Louis Hayward have the principal roles in *Condemned Women*, a story of an inmate of a woman's prison. Buck and Bubbles head the stage revue, *Harlem Parade of 1938*.

**METROPOLITAN**—Her *Jungle Love*, starring Dorothy Lamour and Ray Milland, is a technicolor story of romance in the South Seas Islands. *Island in the Sky*, with Gloria Stuart and Michael Whalen, shares the screen.

**SCOLLAY AND MODERN**—The Goldwyn Follies features Charlie McCarthy and Edgar Bergen, the Ritz Brothers, Adolphe Menjou, Kenny Baker, and Ella Logan. The co-feature is *Arsene Lupin Returns*, with Melvyn Douglas, Virginia Bruce, and Warren William.

### The Good Samaritan

It sounds "unbelievable, but there are Good Samaritans wandering about the bounds and purlieus of the Institute. We have proof.

We know a freshman (he was forced on us) who, after the manner of freshmen the world over, took a book out of the library and lost it. Somebody found it for him and again he lost it. Again the book was found for him and—you guessed it—again he lost it. This time nobody returned it to him.

After a due interval of mourning he went to the library to report the sad loss, only to find that—now this is true, dad-gummit!—that somebody had not only returned the book for him, but had paid the fine he had incurred for keeping it out more than two weeks.

### Infirmity List

Paul E. Sandorff, '39; Jorge Galban, '41; Wenfoo G. Woo, '38; Amos E. Joel, Jr., '40; Leo E. Farr, '41; Leonard A. Merrill, Jr., '39; Richard Menendez, '40.

## Lacrosse Team Loses Close Game To R. P. I.

Season Opener Is Lost, 4-1 Amidst Bad Weather And Deep Mud

The 1938 edition of the Technology Lacrosse Team travelled to Troy, New York on Saturday and dropped a hard-fought game to the engineers of Rensselaer Polytechnic Institute. The game was played under adverse weather conditions, the field being ankle-deep in mud. The final score was 4 to 1, Tech's lone counter coming from a fine play by Tom Creamer in the second period.

Captain John Alexander, '39, led the team from his First Attack position. Teamed up with him at the close attack points were J. P. Hunsaker, '39, at In Home, and Thomas Creamer, '40, at Out Home. Mid-Field men were Elmer F. De Tiere, '39, R. D. Martin, '39, and W. H. Farrell, '40. A. T. Rossano, '38, and Sidney Silber, '39, covered the defense positions for George Carnrick, '40, and R. E. MacPhaul, '40, who split the Goalie's assignment.

The team has a seven game schedule to play; ending the season May 14.

April 20	Stevens	Here
" 23	New Hampshire	Here
" 27	Tufts	Medford
" 30	Williams	There
May 7	Harvard	There
" 14	Boston Lacross Club	

## Elections

(Continued from page 1)

representatives will be members of the Institute Committee.

The Senior Class will vote for two officers—a Permanent President and a Permanent Secretary-Treasurer.

### Petitions Subject to Regulations

Restrictions placed on petitioners for nominations are as follows: No person may sign a nomination blank for a candidate outside of his class. Each person may sign the nomination blank of only one candidate for each office, but he may sign two for the office of Institute Committee representative. Note that a person may sign the nomination blank of only one candidate for Class President, in spite of the new ruling about the Vice-president.

## Beer Party

(Continued from page 1)

Special feature of the evening was the competition between the general managers of the two publications, for their score counted double. Here David A. Bartlett, '39, surpassed Robert C. Casselman, '39, to take the two points and clinch the victory for his journalists.

## Fraternities Near End Of Squash Tournament

Passed by Delta Upsilon and Beta Theta Pi, who have two of their three matches played off in the semi-final bracket, the annual interfraternity squash tournament moved into the semi-final round over the weekend.

In the lower bracket Phi Beta Epsilon and Phi Mu Delta will meet to decide the semi-finalist which will meet Sigma Chi, who has already moved into that position.

In the Delta Upsilon-Beta Theta Pi tilt Bill Allen, '41, playing No. 1 for D. U., lost to Carl Lenk, '38, 3 to 1, while the other match played provided a win for Bill Kather, '40, No. 3 for D. U. over Jack Phillippi, '38. The deciding match, to be played today, will see Arch Copeland, '38, D. U. competing against Dick Loesh, '39.

## Outing Club

(Continued from page 1)

summer in New England, and showed a group climbing some of the more famous mountains in the vicinity. Mr. Henderson is in an excellent position to present the subject to the Outing Club, for he is a member of the Harvard Mountaineering Club, librarian of the Appalachian Mountain Club, and a member of the council of the American Alpine Club.

### Gives Hints On Danger

Among the hints he gave on successful climbing Mr. Henderson emphasized not to hug the rock when ascending a steep incline, for that tended to push one's feet from the precarious foothold. That was about the most dangerous thing one can do, according to Mr. Henderson, the safe way being to have contact with the rock only with the hands and feet, keeping one's body otherwise entirely free from touching.

Mr. Henderson further emphasized that this type of sport is not a dangerous one if the proper precautions are taken, the only fatalities occurring when amateurs have attempted to negotiate dangerous climbs alone and without the proper equipment.

## Frosh Dance

(Continued from page 1)

Chateau at Nantasket, at several Technology fraternities, and is now broadcasting from the Swiss Room of the Copley Plaza, played from nine until two.

The chaperones were Dean and Mrs. Thomas P. Pitre, and Professor and Mrs. R. D. Douglas.

In addition to Richardson, the committee in charge of the affair included Richard A. Van Tuyl, and Norman I. Shapira.

The next meeting of the Freshman Council will be held today at 5 P. M. in the East Lounge of Walker Memorial.

## Beaver Sharpshooters Eleventh In Nationals

Confirmation Of Championship Of New England League Received

Confirmation of the Beaver rifle team's championship of the New England Intercollegiate League was received yesterday in a bulletin from the National Rifle Association.

The Engineers had won seven league matches and lost one for a percentage of .875, while their nearest competitor, the United States Coast Guard Academy, had a percentage of .858. Third place went to Yale University with a .750.

### National Ranking Eleventh

At the same time Technology's ranking in the national rifle Intercollegiate was announced as eleventh. The marksmen had taken second in the New England division of the Intercollegiate, but when their score of 1335 was compared with those of all the competing colleges throughout the country, they were found to be in eleventh place.

First place in the nationals fell to George Washington University of Washington, D. C., with a score of 1367, while second went to Minnesota with a 1360. Others to place above the Beavers were the University of Pittsburgh, Iowa State, U. S. Naval Academy, Maryland University, Nebraska, Illinois, Lehigh (who defeated them in the New England division), and Brooklyn Polytechnic.

### Second In Hearst

In addition to making this enviable record in the New England and national Intercollegiate matches, the team won second place in the Hearst Trophy match for the First Corps Area, with a score of 911 out of a possible 1000. Vermont took first, squeezing past the Engineers by a margin of three points.

The last official match which the team fired was a match sponsored by the Society of American Military Engineers. Only members of the team who are in the Engineers option of military science were eligible to fire in this match. An unofficial team score of about 3550 was recorded, but no official results have been received as yet.

## Track Practise To Be Held During Holidays

Coach Hedlund announced yesterday that Spring track practise will be held over the holidays. All track candidates remaining in Boston during the holidays are asked to report if possible during those days.

## Scholarships

(Continued from page 1)

among the undergraduates.

### Over \$1,000,000 Loaned Since 1930

Up until January 8 of this year, 1,729 men had borrowed \$1,094,422.90 since the founding of the loan fund in October, 1930. Of this \$348,108, 83% of the notes due, had been repaid. It is expected that ultimately 94% of the loans will be collected; and the interest received, \$70,332.79 on January 1, amply covers any possible losses. Student loan capital at the end of last year amounted to \$769,938.08. At the end of last year, the average amount loaned to each man totalled about \$650. During 1936-37, 315 of 427 applications were approved.

### May Not Borrow More Than Tuition

To be eligible for a loan, a man must have attended the Institute for at least one year except in special instances. He may not receive more than the tuition fee in any one year, and may not exceed \$1,500 as an undergraduate, or \$2,000 during his whole stay at the Institute. He must sign promissory notes in \$50 units to be payable at intervals of six months beginning on the December 31 following his graduation.

## Baseball Squad Gets Game For Open House

Sophs And Juniors To Meet This Afternoon

With interclass baseball in full swing, things are now beginning to pick up for the Independent team.

A game has been scheduled for Open House Day with a team from Assumption College of Worcester. It will be held at Tech, and is expected to be a good game, well attended.

In addition to the game with Assumption, games have also been tentatively arranged between the Tech team and the United States Diesel Engineering School on April 22, and with a team from the Harvard Graduate School on April 23.

If the weather holds today, an interclass battle between the Sophomore and Junior teams will take place on Coop Field. Squads are asked to turn out in full strength for the game.

**DON'T WASTE  
PRECIOUS  
VACATION TIME!**

**Fly AMERICAN...and spend ALL  
your time where you're going!**

Spring vacation time is too valuable to be cut down by needless hours and days spent traveling to and from your destination. By flying American, you will spend less time getting there and back—and more time being there!

And you'll find flying American a revelation in travel comfort and convenience, as well as speed. American's giant Flagship Club Planes have deep-cushioned lounge chairs, with plenty of legroom. On overnight trips to the West Coast, American Skysleeper Flagships provide soft, roomy berths, as wide as a twin bed! Delicious, hot meals are served without charge by

a charming and efficient stewardess.

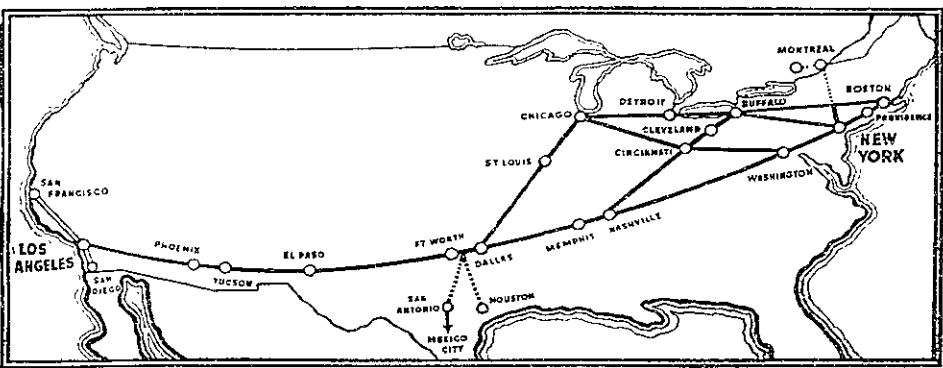

This spring vacation make your trip by American—the air line that carries more passengers than any other in the world. Attractive low rates.

### COMPARE THESE TIME SAVINGS!

From Boston, American serves 57 major cities direct. You can be—for example—in Buffalo in 3 hours, 45 minutes; Detroit in 5½ hours; Chicago in 7½ hours. On American's Southern Sunshine Route, Memphis is 10 hours from Boston; Dallas-Ft. Worth but 12 hours and Los Angeles only overnight! With vacation time as precious as it is, it pays to fly American!

## Spring Vacation Baggage Tip:

**PHONE RAILWAY EXPRESS  
AND SAVE MONEY,  
TIME AND TROUBLE**

We'll call for your trunks and bags without extra charge in all cities and principal towns—forward them by fast express train—deliver them at rates as sweet and low as a croon. And you can express collect, you know, if your funds are low. Convenient? One hundred per cent, and you take your train free from baggage bother.

When you return to college, ship back by the same economical route, and your baggage will be delivered promptly. Special tags and labels—they're by far the best to use—free for the asking.

Holding its annual banquet in the Faculty Dining Room of Walker Memorial on Wednesday, April 13, at 6:30 P. M., American Society of Mechanical Engineers is to feature Professor Stephen G. Simpson of the Chemistry Department, who will show his magic tricks.

Moreover there is to be an announcement of the society's Open House exhibit.

### Debating Team

(Continued from page 1)

affirmative of the question on the National Labor Relations Board against Colgate Friday. Should the Beavers win, there will be a four-way tie for first place in the league, Bowdoin, Bates, and Colgate forming the other three, while a win for Colgate will give them the championship.

### I. F. C. Weekend.

(Continued from page 1)

parties during the weekend, and will therefore be anxious to secure tickets, the committee has limited the number to two hundred. As a result, it will be impossible to admit all the couples that attended the I. F. C. dance the previous night.

### Joint Concert Held By Glee Club, Lasell

A hundred and fifty students of Lasell Junior College, were guests of the Technology Glee Club last Saturday when a joint concert at the Longwood Towers, Brookline was held. The concert, in which the two groups rendered three numbers together and several more separately, was followed by a dance.

Saturday, April 21, the Glee Club will give a concert in conjunction with Bradford Junior College.

### M. I. T. A. A.

(Continued from page 1)

jump, the high jump, the shotput, a half mile relay, and a potato race. The meet is designed to give fellows with little training an opportunity to compete with some possibility of success.

Sports managers will be appointed in the fraternities, in the dorms and in the commuter groups to make the entries in the contest before the vacation.

A point system has been adopted to give all groups an equal opportunity to win the cup offered by the M. I. T. A. A.

### Issues

(Continued from page 1)

nity slate, which appeared in a recent issue of The Tech, the dorm members of the Class of 1940 proposed four men at a meeting held a week ago Sunday. Farrell is the candidate for president, Morehouse is up for secretary-treasurer, and Klivans and Wright are the choice for the Institute Committee. The position of vice-president was left unfilled. Conspicuous by his absence is Tonti, who, it will be remembered, ran a close race with Foster last year for the presidency. This year Divo, who did not choose to run, contented himself by organizing the dormitory slate.

In an attempt to be entirely democratic the dorm Freshmen choose their men by running a poll. The men as they were determined by the poll are: Murdock for president, Adelson for secretary-treasurer, and Kussmaul and Mott for Institute Committee. They will be battling a fraternity Freshman slate composed of Keith for president, Richardson for vice-president, Wilts for secretary-treasurer, and Van Tuyl for Institute Committee. As yet the second candidate for Institute Committee has not been chosen although rumor has it that Iverson will be the man.

It will be interesting to see what effect the new method of selecting the vice-president will have. According to all forecasts the innovation should make it more difficult for any group to monopolize both the positions of president and vice-president.

### James Reddig To Talk At A. E. S. Smoker

"Design Problems in the Construction of Sea Planes and Amphibians" will be the subject of Mr. James Reddig's talk at the smoker to be given by the Aeronautical Engineering Society tonight at 7:30 in Room 2-390. Mr. Reddig is an alumnus of Technology.

Also on the evening's program will be Mr. Franklin T. Kurt, whose topic will concern the advancement and construction of small air-craft. Mr. Kurt is a prominent contributor to the "Sportsman Pilot."

It was announced that two gliders will be exhibited near Building 33 during Open House at the end of April. Paul E. Sandorff, '39, is in charge of the A. E. S. committee for Open House.
